Crafters Guide 2018

Thank you for purchasing one of our bundles. Our Crafters Bundles are super easy to use in your chosen software. We have a list of tutorials below.

1) How to Unzip a file on PC / Mac

<https://designbundles.net/design-school/how-to-unzip-a-zip-file-on-your-pc>

<https://designbundles.net/design-school/opening-zip-file-mac>

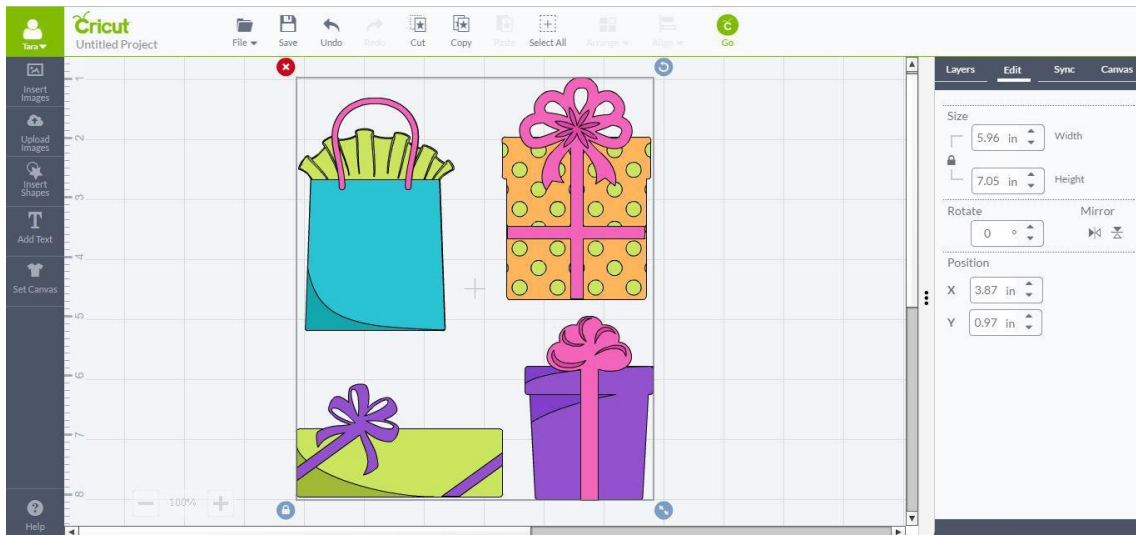

2) How to install fonts on your PC/Mac

<https://designbundles.net/design-school/how-to-install-fonts-on-a-windows-pclaptop>

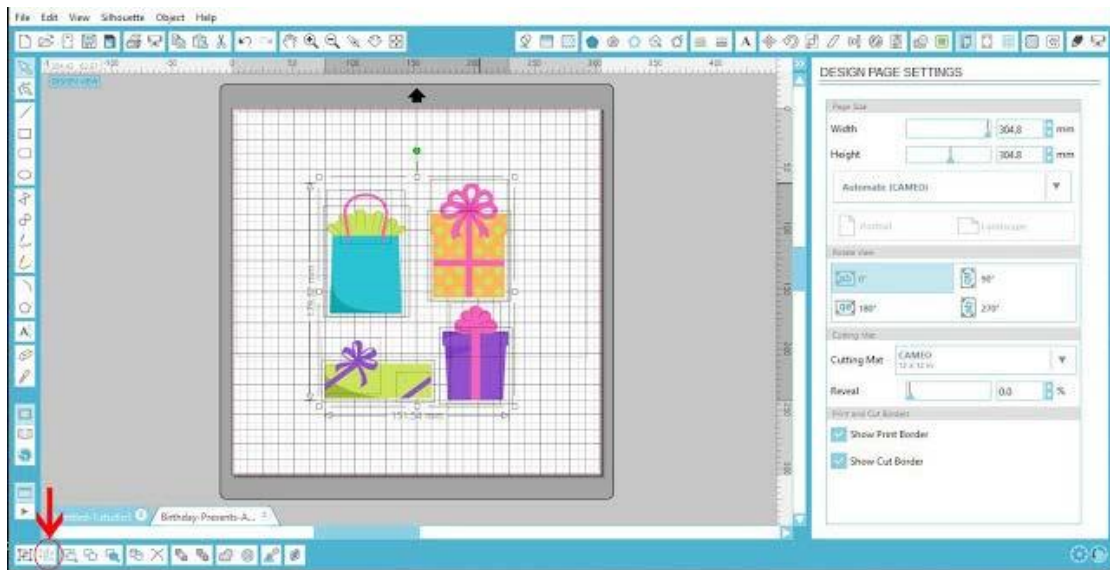

<https://designbundles.net/design-school/how-to-install-fonts-windows-mac>

3) How to use SVG files with Cricut Design Space

<https://designbundles.net/design-school/how-to-use-svg-files-in-cricut-design-space>

4) How to use SVG files with Silhouette Studio

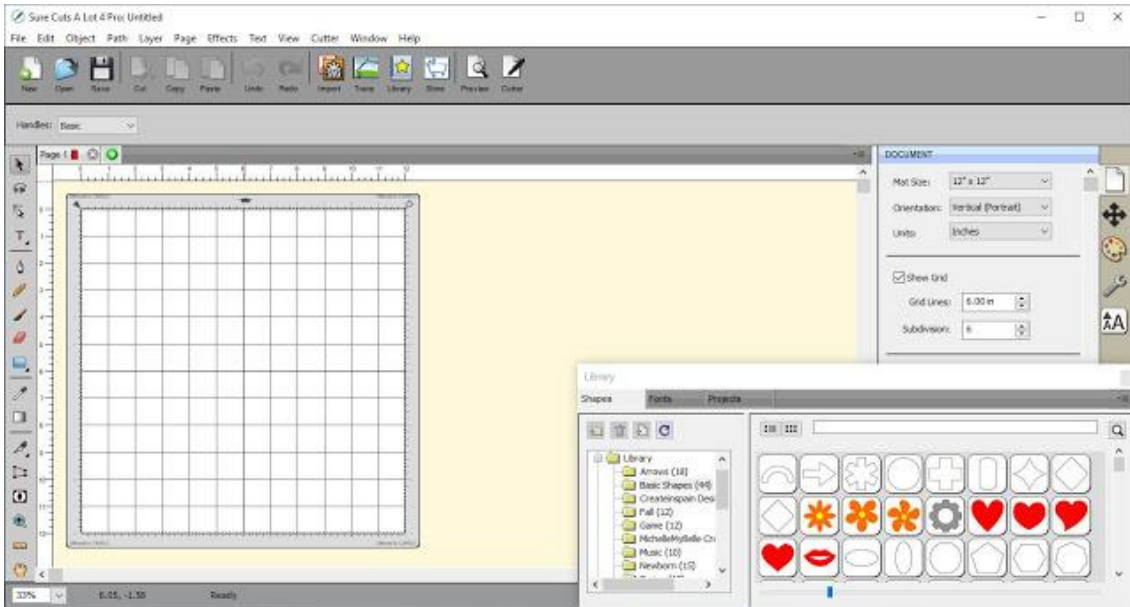

<https://designbundles.net/design-school/how-to-use-svg-files-in-silhouette-studio>

5) How to use SVG files with Scan N Cut

The image displays the ScanNCut web service interface. At the top, it features the ScanNCut logo and the Brother logo. The main content area includes a banner with the text 'More fun is now available for ScanNCut with this canvas.' and an image of a Brother printer cutting a pink butterfly. To the right, there is a login form with a 'New' button, a 'Log In' button, and a 'Stay Logged In (7 days)' checkbox. Below the login form, there is an 'Information' section stating that the ScanNCut Type Converter has been released. The footer contains links for Global Site, Terms and Conditions, Privacy Policy, and Contact Us, along with the copyright notice '© 2013-2017 Brother Industries, Ltd. All rights reserved.' A red arrow points from the printer image towards the login form.
